

Quality policy

Improving the experience of a world in motion.

This policy applies to the factory sites Adient Hungary Kft. Hammerstein u. 2. and Adient Hungary Kft. Hammerstein u. 5.

Adient Hungary Kft. is committed to continuous quality improvement at all its sites, and to this end, it implements and maintains systems, processes and quality management programmes necessary for the implementation of an effective quality management system.

In this mission, Adient Hungary Kft. is committed to comply with the IATF 16949:2016 Quality Management System Standard in accordance with the AE-BOS-PY-01- BOS Policy, taking into account customer expectations.

All sites of Adient Hungary Kft. are committed to reducing energy consumption, greenhouse gases, air emissions and waste, increasing dependence on renewable resources and responsible management of chemicals.

Our vision: The entire company works together to achieve perfect quality in every product, in every factory, in every process, every day. By continuously improving and standardising our product design and manufacturing processes, we aim for market leadership and enable high levels of customer satisfaction.

Our mission: To exceed our customers' growing expectations by striving for a culture of excellent quality in all areas to ensure the production of flawless products and flawless execution of processes.

Our quality policy:
Achieve customer satisfaction with world-class products and services.

Mór, 30 June 2023

Károly Horváth
Quality Management System
Manager

Sándor Pákai
Factory Director
