June 2021

Dear valued Supplier,

As part of Adient's annual IATF 16949 certification and compliance, Adient is required to have a valid current Quality Management System certificate on file for every supplier location that is shipping to Adient.

This is a reminder that IATF 16949 and ISO 9001 certification is required unless your company has obtained a waiver in writing from Adient. All suppliers are required to comply with the Adient's Customer Specific Requirements which can be found in our Global Supplier Standards Manual. Please review these requirements to avoid any non-conformances.

Please submit your current valid QMS certificates (ISO 9001, IATF 16949) through the Taulia self-service tool or send to: ae_eu_supplier_development@adient.com as a max. 5 MB pdf-file.

You can submit certificates as well for Environmental Management System (ISO 14001), Health and Safety Management System (ISO 45001) and Energy Management System (ISO 50001) to the same sources.

Thank you,

Adient Purchasing & SC Team
